Acting Dean Denies Accreditation Loss In Tech Curricula

Civil, Electrical, Mechanical Programs Comply With National Standards

CARRY OUT CHANGES

Growth Will Provide For Increase In Faculty

By Dick Weston

A rumor that one or more courses in the College of Technology have been discredited has been making its way around the campus. Acting Dean Edward T. Donovan of that college is probably more perplexed by the rumor than anyone else, since it just isn't true.

Discussing the rumor, Dean Donovan explained the accreditation procedure for Technology curricula and made a couple of guesses about its origin.

Technology courses are accredited by the Engineer's Council for Professional Development, a group of educators and practicing engineers concerned with maintaining uniform high professional standards. The Civil, Electrical, and Mechanical Engineering curricula at the University of New Hampshire have been recognized by the Council ever since it inaugurated its accrediting program in 1936-38.

These three curricula were inspected by a committee from the Council last May. The Civil Engineering curriculum was approved for two years, and the other two were approved for three years, the normal period.

A couple of changes which the committee recommended in the Civil Engineering curriculum are being carried out. When they are completed, it is expected that the Council will extend accreditation to the full three-year period.

Dean Donovan thinks that the rumor might have been caused either by this situation or the fact that the Chemical Engineering curriculum is not accredited. It does not, at this time, meet the requirement that an accredited curriculum must have at least three instructors. Because of this, its accreditation has never been requested and it was not inspected by the Council last May.

Dean Donovan hopes that the growth of the university may make it possible to increase the faculty of the Chemical Engineering Department, so that it may be accredited when the College is inspected next, in 1961.

At any rate, no curriculum in the College of Technology has been discredited, or even been in serious danger of discreditation. Another rumor, born in the gloomy hinterland of someone's misunderstanding, has proven, like most of its kind, to bear little resemblance to the truth.

Offers Course For An IBM Type 704 Auto-Computer

A Programming Course for the IBM Type 704 Automatic Computer which is housed at the M.I.T. Computation Center for New England Colleges and Universities will meet on February 19, 20, 21, and 26, 27, 28 from 1:00 (not 1:10) p.m. in DeMeritt 17.

Staff and students are welcome but class size is limited to 25 persons. Those interested may leave their names with the Mathematics Department Secretary, Miss Hoyt, Ext. 380.

The course will be taught partly from the M.I.T. programming notes which may be purchased for \$5.00. However, the appropriate portions will be made available to the group at a nominal price. In addition, IBM manuals for the 704 and for FORTRAN will be used and distributed without charge. The group will go down to M.I.T. on March 14 and run training problems.

In connection with the M.I.T. Computation Center, attention is called to the availability of research assistantships (for graduate students) and research associateships (for junior staff members) at the Center for physical and social scientists. Notices of these research appointments have been distributed to the various Deans and will be posted. Applications must be at M.I.T. by March 1. It is emphasized that these appointments generally allow the recipient to do his research on his home campus. The facilities of the Center are available for him when needed.

Photo Exhibit To Appear At New Library Gallery

Two exhibitions of photographs will be on view at the University of New Hampshire beginning February 11 and continuing through February 28.

On view at the University gallery, the Library, will be an exhibition covering the history of photography from its beginnings to the present time. This exhibit includes the early period, 1839 to 1851, comprising the invention of photography, the Daguerreotype and the Talbotype; the middle period, discussing the wet collodion plate; and the contemporary period, beginning in 1888 with the "Kodak" No. 1 and the invention of transparent flexible film. The designer of the show, Gerda Peterich, has separated these three periods visually by the use of three different panel colors, thus bringing simplification to the understanding of the extensive material.

Facsimile prints are used throughout in order to give the feeling of the originals. Titles and captions give the viewer a quick orientation, while the text contains much detailed information. There are about 190 photographs.

Photographs of Brussels Fair

In the exhibition corridor, second floor, Hewitt Hall, a series of photographs of the Brussels Fair will be on exhibition. These pictures were made last summer by Mr. John Curtis, a senior student at the Massachusetts Institute of Technology. Mr. Curtis was on tour with the M.I.T. Choral Society which performed in the United States theater at this fair. Mr. Curtis comments on some of his pictures as follows:

Views include the principal pavilions, grounds, the Atomium as seen from the outside, and also views of the inside, including some of its controversial modern art and a glimpse of its round modern fishing boat which some visitors to the Fair mistook for a "flying saucer that got seabound."

SEATO Announces Essay Competition

SEATO invites college students to participate in the Association of International Relations Clubs' essay contest. Prizes will be awarded to the best essays on the theme "Collective Security in Southeast Asia."

All participants must be between 17 and 21 years of age inclusive; enrolled as an undergraduate in an American college or university; and a national of the USA or any other of the SEATO nations which include Australia, New Zealand, The Philippines, France, Pakistan, Thailand, and The United Kingdom.

The essay itself must consist of 3,500 words or less and should be submitted to the Association of International Relations Clubs, 345 East 46th St., N. Y. 17, N. Y. not later than Feb. 28th.

(continued on page 8)

Crusade For Freedom, Sponsor Student RFE Broadcast Contest

Senate Welfare Committee Sponsors A Costume Ball

"What I would look like if I came from another planet" will be the theme of the Student Senate Welfare Committee's Inter-planetary costume ball. This dance is to be held Friday the thirteenth in the Strafford Room.

Cash awards will be given for the cleverest costumes. Participants may give free reign to their imaginations, as no restrictions have been placed on the design of the costumes. The amount of the awards themselves will be determined by the net proceeds.

The mood of the gala affair will be further enhanced by the entertainment which will include a three piece comedy band and records played on a stereophonic recorder. Outer space men may even honor our humble campus by awarding prizes for the winning costumes.

Tickets for this outer space treat are only 35c per person and 65c per couple.

Fraternity Rushing Starts; Will Last Until March 3rd

Formal fraternity rushing begins on Monday, February 9. Rushes will be visited at this time by representatives of the fraternities from one to eight p.m. and again on the following Monday during the same hours.

Open house is to be held by all the fraternities on the succeeding two Monday evenings, from 6:30 to 8:00 p.m.

Freshmen will receive invitations to various fraternities for social hours (Continued on page 8)

Talented Student Skater Highlights NHOC Ice Show

Highlighting the annual Ice Show at the University's Winter Carnival will be the appearance of pretty, 20 year old Judy Barnch of Hanover. Judy, one of the most skilled figure skaters in the state, is a physical education major here and is presently teaching skating on campus.

At the age of four, Judy refused the "double runners" which her father had bought for her and insisted on using the same style of figure skates which her sister had received. Since that time, she has won numerous trophies and made appearances at skating events throughout New England. A friend of Tenley Albright, former Olympic skater, the talented coed has skated with her at the Boston skating club.

Rating "any type of double jump", the hardest kind of maneuver to perform, Judy admits that it takes determination and effort to become really proficient in the sport. But she feels that the fun one can get out of skating, rather than the degree of ability developed, is the important thing.

The Ice Show is just one of the features of the "Old Fashioned Carnival" which will be held Feb. 19-22. A brief outline of the program of activities follows:

Thursday 19

Torch Ceremony, Installation of Carnival Queen, Announcement of winners in Snow Sculpture and Beard Contest, Jazz Concert, N. H. Hall.

Friday 20

20th Carnival Ball.

Saturday 21

Interhouse Athletic Events, Garrison Hill, Ice Show, Batchelder Rink, Informal Dance, Memorial Union.

Sunday 22

22nd Ski Meet, Intervale.

The price of admission to the Ball is \$4.50 per couple, and tickets are available at the Bookstore, the Union and the Wildcat.

Slalom Contestants

The 3rd Annual New Hampshire Outing Club Slalom for Carnival and unclassified racers will take place February 22, at Intervale Ski Area in Intervale. This will be the concluding event of Winter Carnival.

All persons interested in entering the meet are urged to register by sending a standard United States Eastern Amateur Ski Association entry form, accompanied by \$1.50 to Dave Flewelling, 37 Madbury Road, Durham.

Race time is scheduled for 9:30 a.m. Trophies will be awarded for winners of the men's and women's divisions. For any questions regarding entrance to the race, see Jed Williamson or Dave Flewelling, co-chairmen of the race, or any Blue Circle member.

Winding Provides Music For Dance

Coleman Agrees to Lead University Fund Drive

G. E. Coleman, Jr., president of Nichols, Inc., of Exeter, has accepted the chairmanship of the University Fund — a national campaign among alumni, parents, and friends of this University — to provide money for four special professorial chairs.

Announcement of the acceptance was made by University President Eldon L. Johnson and Frederick C. Walker, President of New Hampshire's Alumni Association.

Money raised will also be used to continue an "Alumni Visitor" program recently inaugurated under which distinguished lecturers are brought to the campus throughout the year.

The drive will open February 21 in conjunction with a New Hampshire Seacoast Regional Class and Club conclave to be held in the Memorial Union. Governor Wesley Powell is the scheduled speaker for this conclave.

Mr. Coleman, who has long been prominent in the state and national poultry industry, is also an alumni trustee of the University.

Sophomore Sphinx

Members of the '61 Sophomore Sphinx distributed applications for the '62 Sphinx to the freshmen before semester break. On returning to the campus a list of freshmen averages was obtained from the recorder's office. Eligibility for Sophomore Sphinx requires a 2.0 for men and a 2.2 for women.

The '62 Sphinx formed a list of candidates containing forty men and forty women, all second semester freshmen. The freshmen then voted, selecting twelve girls and thirteen boys. The ballots were distributed and collected at Commons on Wednesday, Feb. 11. A member of Student Senate was on hand to see that the voting was carried out legally. All ballots are under lack and key and will be tabulated and published after the rushing period.

A Unique Marathon Will Start Carnival

The University Outing Club will repeat its unique skier-runner marathon to inaugurate its annual winter carnival.

The first such road race carrying a lighted torch from the Profile in Franconia Notch to the Durham campus was held to open last year's carnival.

On Wednesday, February 18, a fire will be lit atop the Old Man of the Mountain and carried by torch to the summit of Cannon Mountain by three of the Outing Club's rock climbers. From there three skiers will relay the flame to the base of the mountain where it will burn throughout the night in a specially built replica of the central snow sculpture on the University campus.

Twenty-five runners, many of them members of the track team, will carry the torch by turn to Durham where it is expected to arrive at 9 p.m. Total time for the run from Cannon Mountain is estimated at 13 hours and 24 minutes. The flame will burn throughout the three-day carnival as part of the central snow sculpture which will represent this year's theme "An Old-Fashioned Carnival".

Students Participate In Work Program

Applicants are now in the final stages of screening for the summer work program at the Concord State Hospital. Robert Blouin, who attended the session last year, has been in charge of recruitment under the direction of Professor Melville Nielson and Reverend Robert Savidge.

The twelve week program is divided into two sections of equal length, one in the Occupational Therapy Department and the other consists of a ward assignment.

Although the student is paid at the regular hospital attendants' rate, the program is intended to be educational as well as an opportunity for a summer job. Classes, demonstrations, and discussions are held regularly to acquaint the college students with the problems involved in the treatment of mental illness.

An estimated eight or ten students from the University will participate in the program this summer. It is a great advantage to the hospital, as it allows the permanent employees to take summer vacations without diminishing the assistance available to the patients.

Those participating in recent years have found it to be an extremely rewarding experience giving one great personal insight. It is also of obvious advantage to majors in sociology, occupational therapy, pre-medical, and psychology.

Famous Trombonist Is Featured Guest For Carnival Ball

Musician Affiliated With Such Great Names As Mulligan and Wallington

NEEDS NO INTRODUCTION

Group Wins Nat'l Acclaim Among College Campuses

By Dick Shea

Jazz lovers (and in fact good music lovers of all sorts) will be 'gassed' to hear that none other than Kai Winding will provide the music at the annual Carnival Ball, on Friday night, February 20th, 9 to 2 at New Hampshire Hall.

Winding is a name that needs no introduction to most of us. He is generally known as being the 'K' in the J.J. and Kai groups of a couple of years back, and a trombone player of considerable talent. He has been closely affiliated with such names as Gerry Mulligan, Max Roach, and George Wallington, in his brilliant career.

Born in Denmark

Kai Winding was born in Aarhus, Denmark, and came to America in 1934 at the age of 12. After High School he played with local dance bands, joining Sonny Dunham in 1941, Alvino Rey in 1942 and the Coast Guard soon after. Upon receiving his discharge from the Coast Guard he went with the Benny Goodman organization, whom we may have heard something about, somewhere along the way.

Then Kai went with Stan Kenton in '46 and '47, and his name took on a new prominence in Stan's "Artistry in Rhythm" Series.

The "Downbeat" and "Metronome" annual polls show Kai as consistently among the top three trombonists from 1947 through the present.

From 1949 through 1954 Kai worked with his own jazz group in "Bop City" and "Birdland." At this same time the versatile Winding was working TV with Patti Page, Robert O. Lewis, The Athru Murray Dance Party, and others.

The Trombone Sound

In August 1954, Kai Winding decided to devote his entire effort to his own field, and he teamed up with another close friend — he did a dual trombone date with one J. J. Johnson for Savoy records.

The results of this date were so gratifying that Kai and J.J. decided to "put the act on the road." Within a year, the J and K Quintet had five LPs on the stands — all on different labels.

The 1955 Metronome Yearbook noted J and K — "Distinction of being the most widely recorded duo in jazz history."

The quintet finally established the "Trombone Sound," created by Kai, and led to its natural extension in a Columbia LP featuring no less than eight trombones.

Four Trombones

In mid 1946 Kai and J.J. came to an amicable parting of the way, each resuming his individual career. Kai formulated a new group that would re- (Continued on page 8)

Official Notices

All students are responsible for knowledge of notices appearing here.

Motor Vehicle Registration. Students who were not enrolled the first semester and who wish to operate a motor vehicle in the town of Durham are required to register the vehicle at the Traffic Control Window, Thompson Hall. Copies of the Motor Vehicle Regulations are available there. The fine for an unregistered vehicle is \$10.

All students operating vehicles are required to report 1959 registration numbers as soon as they are issued.

Parking. The University is not responsible for damage done to automobiles parked close to buildings in non-parking areas. During the winter months (November 1 to March 31) the area on the west side of New Hampshire Hall is considered a non-parking area. People using this area do so at their own risk.

Education 58. Students intending to enroll in Education 58 in either semester of the 1959-60 academic year must register in the Education Department Office, Murkland 3, during the week of February 23-28.

English C, Improvement in Reading, will be offered in four sections (starting February 16): MWF 9, 11, 4, and TThS 8. Students interested should sign up with Mrs. Sarette in Murkland 118.

W R A Notes

Interhouse basketball terminated last Thursday in a real thriller between Alpha Chi Omega and New Hall. Alpha Chi took the game and in so doing won the campus tournament. Second and third place went to Smith and New Hall respectively. Congratulations to you all.

The competition in Interhouse bowling is getting hotter and heavier at every match. There are two leagues. In league one, North Congreve leads with a total of 821 for two weeks. In league two, Alpha Chi Omega leads with a total of 832 for two weeks. Other league standings are as follows:

League I	
North Congreve	821
Smith Hall	795
McLaughlin	760
New Hall	733
Sawyer Hall	398
South Congreve	576
Scott Hall	373
Chi Omega	Scores not all in
League II	
Alpha Chi Omega	832
Alpha Xi Delta	815
Theta Upsilon	716
Kappa Delta	557
Phi Mu	376

The long awaited time is drawing near. Interclass basketball starts Tuesday, February, 10. Leader for this activity is Judy Gove. Class managers are Senior: Louise Nutt, Junior: Sue Thayer, and Freshman: Claudia Sanberg. A girl must attend two out of three games in order to be eligible for her class team. The schedule is as follows:

Society Initiates Members

On Monday night, January 12, the National Society of Scabbard and Blade initiated twenty-one members into company "F" Sixth Regiment. The new members are: Ernest Blastos, Jr., John Blewett, Richard Bradbury, Herbert Clark, Peter Doak, Kenneth Duhy, Paul Dargon, Mike Edwards, Robert Esposito, James Haggerty, John Haslam, John Hussey, John Jones, John Knight, Paul Marshal, Phil Ouellet, John Ridge, Henry Roy, Peter Smilikis, Warren Wilder, and Joseph Shillady.

The Company is planning many social events this semester besides the rushing, which will begin March 11. The social calendar will include a tour of the Portsmouth Naval Base, a night at Pease Air Force Base Officer's Club, and the annual banquet of Company "F".

Feb. 10 4 p.m.	Sophomores
Feb. 10 5 p.m.	Juniors vs Seniors
Feb. 11 4 p.m.	Freshman
Feb. 11 5 p.m.	Sophomores
Feb. 12 4 p.m.	Juniors vs Seniors
Feb. 12 5 p.m.	Freshman
Feb. 16 4 p.m.	Juniors vs Seniors
Feb. 16 5 p.m.	Freshman
Feb. 17 4 p.m.	Sophomores
Feb. 18 4 p.m.	Open Practice

Don't forget, girls, your badminton games must be played off by February 13. An All Star team must be picked shortly after that to play against other schools.

Remember: Co-Recreation volleyball starts the second week in February. Speak to your boyfriend now so that you can play on his team.

Hope you did well in your exams.

Psi Epsilon Selects Their New Officers

At their annual meeting on Jan. 12, the members of Psi Epsilon, the Honorary Economics-Business Society of the University of New Hampshire elected officers for 1959 and laid plans for their annual banquet.

The new officers are:

President: Richard Pierce
Vice President: Victor Chrystowski
Secretary: Thomas Russell
Treasurer: Wesley Cobb
Chaplain: Richard Weston

Committee chairmen elected are:

Membership: Leon Osborne
Program: Dana Palmer
Publicity: Richard Weston
Social: Wesley Cobb

The banquet was held at the Grafton Room of the Memorial Union on Jan. 22. Guests of the society for a most commendable roast beef dinner were faculty members of the Department of Economics and Business Administration and their wives. Guests of honor were Acting Dean Paul E. Schaefer and Mrs. Schaefer.

After dinner Dr. Brian Kay, Assistant Professor of Psychology, spoke on "The Research Attitude." He stressed the value of maintaining an open mind when entering the world of business. Retiring President Ronald Piche then made his closing remarks, summing up the Society's activities in the past year, expressing thanks to Dr. Joseph E. Shafer, the retiring advisor, and introducing the new officers.

Games Committee Names Winners Of Tournament

The results of the ping-pong tournament sponsored by the Student Union Games Committee are as follows:

Linwood Hillgrove and Phil Demers vs. Bob Migneault and Arthur Burettelittle 21-18, 13-21, 21-14, 16-21, 21-11.

Migneault was last year's single champion and Burettelittle was runner-up in last year's tournament. Both being exceptional players, the game was an upset.

Demers on the winning team and Migneault on the losing team played fast and well developed offense games.

They were expected to dominate the tournament; however, the match turned out to be primarily defensive.

Linwood Hillgrove, Phil Demers, Bob Migneault, and Arthur Burettelittle will form an Advisory Board for ping-pong for the Student Union Games Committee.

Club Completes Ski Plans

Leslie Wood, manager of the Garrison Hill Ski Area in Dover, announced that plans have been completed with the UNH Outing Club for the scheduling of the ski events in connection with their Annual Winter Carnival. The meet will be on Sat., Feb. 21 starting at 1 p.m.

Mr. Wood also stated that the popular Dover ski spot had been greatly improved during the summer months. The area now boasts 5 slopes and one trail; these are serviced by a 1000' electric tow. The area operates 7 days and 6 nights a week.

Veteran's Corner

A disability incurred while performing extra-hazardous duty in the Armed Forces during peacetime may make a veteran eligible for the higher rate of service-connected disability compensation from the veterans administration.

Otherwise, VA compensation for same disability is 80% of the rate paid during wartime.

No specific rule can be laid down as to what constitutes extra-hazardous service, the VA adjudicates each case by its own merits. It may consider service extra-hazardous if it is performed under conditions recognized as exceptionally dangerous, or if it involves risks beyond those ordinarily encountered in routine peacetime, duties.

Typical duties may be adjudicated extra-hazardous if they include war maneuvers, testing of experimental weapons, parachute jumps, operation of aircraft or submarines, deep sea diving, and demolition work.

An increase in the number of applications for G. I. home loan guarantee received during December was reported by the veterans administration, in its monthly summary of loan activities.

However, declines were registered in the number of requests for appraisals of both new and existing structures. Actual starts were also down, a portion of this decline undoubtedly being due to seasonal construction lags.

War Orphans, 14 years or younger, with a mental or physical handicap, can obtain special restorative or vocational training supervised by the Veterans Administration under the War Orphans Education Program.

Under recent legislation, VA can now assist those children whose mental or physical handicaps are impediments to gaining a formal education.

VA's Vocational Rehabilitation Board must first select those eligible for such specialized training, when after investigation, that board decides it would be in the child's best interest. The agency's vocational counselors then determine the course of study and set up a separate and distinct program for each student.

Applicants for War Orphans Education generally must be between 18 and 23 years of age. Also, they either must have completed high school or have left school upon reaching compulsory school age.

War Orphans Education is for the sons and daughters of WW I, WW II, or Korean War veterans who died of service connected causes. They may receive up to 36 months of schooling, with VA paying an allowance of up to \$110 a month. Applications for specialized training should be accompanied by a statement showing the handicap.

Less than four years after graduation...

He runs a team of 69 people serving 20,000 telephone customers

H. D. "Doug" Jones graduated from Texas A. & M. with a B.B.A. degree in 1955. Today, Doug supervises six plant foremen and 63 craftsmen for the Southwestern Bell Telephone Company at Galveston, Texas. He is responsible for installation and maintenance activities on some 31,000 telephones serving 20,000 customers. It is a big job and Doug finds it challenging and rewarding. Here he is during one day's activities...

sponsible for installation and maintenance activities on some 31,000 telephones serving 20,000 customers. It is a big job and Doug finds it challenging and rewarding. Here he is during one day's activities...

"8 A.M. Today, before the men start out on their job, I talk to the foremen and their crews about the importance of taking every opportunity to sell telephone services and build good customer relations."

"9:10 A.M. One of the best ways for me to judge the results of our training programs is to ride along with the men on service calls. Here, I chat with a customer while a color telephone is installed in her home."

"10:30 A.M. Returning to the office, I check customer trouble reports with my Chief Test Deskman. Continuous study of these reports helps us to prevent serious problems from developing and keep our customers satisfied."

"1:15 P.M. After lunch, I meet with the district department managers to go over floor plans for a central office now under construction. The office is being planned to serve a particularly fast-growing area."

"3 P.M. At my desk I prepare production reports on our installation and repair activities. A foreman reports a complex switchboard installation being completed today. I decide to go over and talk to the customer."

"4:10 P.M. At the Port of Galveston offices, I discuss advantages of the new P.B.X. with one of the officers of the Port. The Port requires complex telephone services, which must be maintained around the clock."

"Well, that is how the job went today... tomorrow will be very different. There is just no set routine on this assignment. I have to be ready for anything that develops. That is one of the reasons I really look forward to my work every day."

Doug Jones and many college men like him have found real opportunity to use their abilities in Bell Telephone Companies. There may be a bright and fulfilling career waiting for you, too. Talk to the Bell interviewer when he visits your campus. He'll give you the whole story. And read the Bell Telephone booklet on file in your Placement Office.

Beards Become Apropos For Annual Carnival

Beards and sideburns on the male students can only mean that Winter Carnival Weekend is fast approaching. The men with the bushy growths are preparing for the Beard Competition, one feature of the "Old Fashioned Carnival", which takes place on campus February 19 to 22.

A highlight of the weekend is the Torch Ceremony which officially opens the activities after runners have relayed the torch from the Old Man of the Mountain to Durham.

Other events include Snow Sculpture, the Traditional semi-formal Ball, the selection of Carnival Queen to reign over festivities, and inter-house athletic competition.

A complete program of activities follows:

- Thursday 19**
- Torch Ceremony, Installation of Carnival Queen, Announcement of winners in Snow Sculpture and Beard Competition, Jazz Concert (8:30 9:30) New Hampshire Hall.
- Friday 20**
- 20th Carnival Ball (9:00 p.m.) New Hampshire Hall.
- Saturday 21**
- Interhouse Athletic Events (1:00 p.m.) Garrison Hill, Dover, Ice Show (7:00) Batchelder Rink, Informal dance (8:30) Memorial Union.
- Sunday 22**
- 22nd Ski Meet (10:00 a.m.) Intervale, New Hampshire.

Vice-President Addresses An Education Conference

Dr. Edward D. Eddy Jr., Vice-President and rovest of the University, addressed a general session of a special American Council on Education conference at the University of Notre Dame, Feb. 7.

The theme of the two-day conference was "The introduction of entering students to the intellectual life of the college". The conference was sponsored by the American Council's Commission of the College Student.

Dr. Frederick M. Jervis, Director of Counseling, was also a conference speaker.

American Alumni Council Chooses 1960 Committee

L. Franklin Heald, Director of Informational Services here at the University has been elected conference chairman of the northeast district of the American Alumni Council. He succeeds Randall W. Weeks, Executive Alumni Secretary at Boston University.

Also elected to the 1960 conference committee were: William J. Cox, Secretary of Phillips Exeter Academy; William S. Warren, Jr., Director of Development at St. Paul's School; Rudold O. Oberg, Director of Alumni Relations at Northeastern University; Baxter S. Patrick, Alumni Secretary at Wesleyan University; and Mr. Helen W. Feeley, Alumni Secretary at Bennington College.

The group was elected at a recent Council conference at the University of Massachusetts.

Cornell Offers Fellowships

Six graduate fellowships for future secondary school chemistry, physics, or mathematics teachers are available at Cornell University for the 1959-1960 academic year. Terms of the Program include tuition, fees, and \$1200 for living expenses.

Qualifications expected are the following: graduation from a college or university; considerable high quality work in chemistry, physics and/or mathematics; a desire to complete the education requirements, and an intention to seek employment as a teacher in a secondary school.

The graduate students will observe and participate in teaching, take academic courses, and consider teaching problems with 100 other students who are preparing for science or mathematics teaching.

Further information and application forms may be obtained from Professor Philip G. Johnson, 3 Stone Hall, Cornell University, Ithaca, N. Y.

Fellowship Awarded

Miss Betty Truelson, President of Alpha Xi Delta, announced today that as part of its national philanthropic program, Alpha Xi Delta Fraternity will award a graduate fellowship in the amount of \$1,500.00 for advanced study in the field of Social Service. Any graduate of an accredited college or university is eligible to apply.

Interested persons may obtain application blanks at this time from Betty Truelson, Alpha Xi Delta — Durham 151. Announcement of the successful candidate will be made by the National Council of Alpha Xi Delta in March, 1959.

Local Students Enrolled In Regional Co-op Plan

Twenty-six New Hampshire Students are enrolled as regional students this year at other N. E. state universities under a new plan of regional co-operation among the six institutions.

During this first year's operation of the plan, which was developed with the assistance of the New England Board of Higher Education, 302 regional students are enrolled in fifteen programs at the six institutions. Regional students are enrolled in specialized programs not offered by their own state universities.

Under this plan students pay only the in-state or resident tuition fee of each state university. This is substantially less than the non-resident tuition. Regional students are also given preferential consideration for admission to these programs.

The twenty-six students from New Hampshire are enrolled in the following programs. University of Connecticut: pharmacy 13, physical therapy 8, social work 1. University of Maine: pulp and paper technology 2. University of Vermont: nursing 2.

Regional students at the University

Second Nationwide Contest Will Award Prize To Essayist

The second annual nationwide contest to stimulate the interest of college and university students in industrial and human relations will be co-sponsored by INDUSTRIAL RELATIONS NEWS and the AMERICAN SOCIETY FOR PERSONNEL ADMINISTRATION.

This year's topic, "Should States have 'Right to Work' Laws?" deals with laws, now in force in 19 states, which permit a ban on "closed-union" shops.

"Right to Work" legislation was one of the major issues in the recent congressional elections and saw defeat of proposals in five out of six states. The issue will continue boiling through 1959 as labor seeks to extend its gains against this legislation.

The contest is open to full-time students taking personnel administration and/or industrial relations as a major or minor subject of study in an accredited American college or university.

Last year's essay contest winner was Mr. Earl F. Callison, Jr., a student at the University of Wichita, on the subject, "What Philosophy and Principles Should Guide the Relations of Management and Employees?"

Awards: An award of \$25 U. S. Savings Bond and a Plaque will go to the student writing the best essay on "Should States Have 'Right to Work' Laws?" An Honor Certificate will be awarded to the second and third prize winners.

of New Hampshire total 47: art 4, art education 3, hotel administration 8, occupational therapy 27, physical education for women 5.

Physical Education Dept. Sponsors Basketball Day

The Annual High School Girls' Basketball Day will be held at the University of New Hampshire on Saturday, February 14, from 12 to 6 p.m. Jean Hodgkin is student chairman for the day, and Mary Ann Cutter is hostess chairman.

The event is sponsored by the Woman's Physical Education Department and the Junior Physical Education majors. Conferences will be held for all the guests interested in majoring in this department. Exhibits will be displayed representing the various sports offered on this campus.

Participating in the program will be sophomore and junior girls from Durham, Exeter, Portsmouth, Hanover, Newmarket, Dover, Hudson, and Hampton. The school teams will be divided into two leagues with the winning teams playing each other. At this time, many of the Physical Education majors will take their officiating exams.

Announcement: The awards will be announced at the Annual Conference of the American Society for Personnel Administration on June 17, 1959.

Judges Panel: Panel composed of Marshall J. Diebold, Vice-President, Northrop, King & Co., A. J. Schroder, 2nd, Administrative Vice-President, Scott Paper Co., and Van M. Evans, Associate Publisher, Industrial Relations News, will select the prize-winning essay and two essays for honorable mention.

Closing Date: All entries for the contest must be in by midnight, April 30, 1959.

Entry blanks and contest rules may be obtained from Industrial Relations News, 230 West 41st Street, New York, 36, N. Y., or American Society for Personnel Administration, Room 5, Kellogg Center, East Lansing Michigan.

Budget Badgering

Although most of us are disturbed by the fact that the faculty at this University are not being paid anywhere near decent salaries, it is even more disturbing to think that we may have to raise these salaries by paying higher tuition rates next year. No official consideration of a tuition hike has been taken yet. But it is the only alternative to the Legislature's accepting the University budget as presented by the President and trustees. The chances of acceptance are hard to estimate, especially since Governor Wesley Powell has recommended that we be granted about a million dollars less than our request.

The faculty have finally decided that they mean business. At the last meeting of the University Senate, on February 2, it was stated that "Without the funds requested . . . the University will find it difficult, if not impossible, either to retain its more promising and distinguished faculty members or to replace those who leave." We believe that if the Legislature chooses to remain tight-fisted some teachers will certainly leave next year, and that there will be an even more noticeable exodus in two or three years. One professor in the History Department spoke to us of having passed over some good job offers last December, thinking at that time that his salary would be raised. Next December he will have another chance at considering job opportunities elsewhere.

The President's Office has on record, and chairmen of departments relate, that several teachers who were listed in the 1957-58 catalogue have already left for better-paying positions elsewhere. These persons, we emphasize, left for salary considerations and were thought excellent in their field. We are amazed at the size of the list and have chosen a few examples. Benjamin J. Katz, Associate Professor of Economics, with a Ph.D. from Harvard, is now teaching at New York University. New Hampshire lost John Kobel, Assistant Professor of Economics, who also studied at Harvard; he first accepted a position at MIT and has now agreed to teach at the University of Wisconsin. Albert G. Welch, Research Associate Professor in Technology, is now earning a couple more thousands annually at the University of Florida, while another Associate Professor in Technology is earning \$4600 more in industry. Finally, an Assistant Professor in English, Gerritt H. Roelofs, who received a Ph.D. from John Hopkins University, has left our campus for that of a Midwestern university where he enjoys a considerable raise in salary.

What we would like to know is why Florida and Wisconsin and New York can offer their youth something that New Hampshire can't? And even if our Legislature doesn't want to compete with some of the richer states, at least it can help its University stay at the level of the average ones; it must be mortifying for any New Hampshire man to see his state ranked with the Deep South in the matter of state aid to education. Faculty members at this University received salaries last year which were from \$320 to \$1,000 lower than the national average in state universities, but the aid which the state gave was a mere 45 percent of operation expenditures. In the average land-grant university, the state pays 57 percent of the expenses. The increased aid requested would just bring us over the 50-50 mark. Is that, in all fairness, asking too much?

Coming back to the subject of faculty salaries, it is interesting to note that Lenin A. Baler, Associate Professor of Psychology, has decided to resign and accept a two-year grant to do some post-doctorate study at Harvard. He will be paid more for studying there than for teaching here.

Governor Wesley Powell's key word in the matter of state expenditure seems to be "holding the line". Well, faculty salaries here have not been "holding the line". For every faculty rank, this university is farther below the average salary this year than last. According to a recent estimate, we would need almost half a million a year to keep up with salary trends and attract the best teachers. If this is the way to build a first-rate university, we can also tell the Legislature how a second, third, and even fourth-rate one is built. First you offer about \$500 less a year to beginning instructors than the neighboring states; this we are now doing. The lower ranks of your departments are replenished with mediocrities, who establish themselves with their families in the community, and these are later promoted to higher ranks in the departments.

If the next two weeks show the New Hampshire Legislature "holding the line", it is a sure thing that students here will be holding the bag. And yet, higher tuition rates are almost unthinkable. Already the average tuition rate in state universities is half of ours. Also, there is the prospect of higher cost for room and board in the near future, due especially to the building program.

We hope that the Legislature will act justly and reasonably in the forthcoming weeks and approve the University budget as it stands. But we also believe, with the University Senate, that those who are part of this University must take "every step necessary to present to the people of the state and their representatives in the

Looking Around

A Revelation

By DICK SHEA

Just as St. Nicholas is the patron Saint of capitalism, and St. Patrick is the patron Saint of snake haters everywhere, so it has come to be that a certain "St. Valentine" is today highly revered by lovers and greeting card manufacturers all over the civilized world, and (ironically enough) February 14, the assumed date of his death, is now that day on which amorous missives are dipped in Chanel No. 5 or Old Spice and sent fluttering through the mail, directed by Cupid's arrow, to lovers' palpitating hearts. (This is undoubtedly the longest sentence I have ever written).

Origin of this custom has been lost (or cleverly concealed) in antiquity, but it is possible to piece the legend together with a few unauthenticated facts.

This I shall now endeavor to do.

Valentine or Valentinus was the name of many saints, but the most celebrated are two who are subtly similar. Both were Roman martyrs who died on the same day, were buried in the VIA FLAMINA (this was in the good old jolly days of Claudius II when martyrs' bodies were stuffed down manholes); both wore AFTER SEXTUS togas, and both were called Butch.

Here the similarity ends.

It has been ingeniously suggested by such celebrities as Eva Braun, Charlie Starkweather, and William Loeb that these might have been the same person, and that the historian to whom we attribute the aforementioned data was also the inventor of carbon paper. This is merely heresy, however.

How Valentinus came to be the patron Saint of lovers is still semi shrouded.

It seems that the Romans celebrated February 14th as the day when the birds first began to mate. The species of bird

AVIS PUNCTUALIS was very good at reading the Roman calendar.

Anyway, this looked like fun to the Romans, who were not to be beaten out by the birds, so they innovated a feast in favor of their goddess, JUNO REGINA. At this feast it was the practice for boys to draw by lot the names of girls, who were their partners in the celebration.

It is not known exactly what the feast consisted of, but there is no record of fig-eating, or grape-pressing contests.

The early Christian leaders called this a "lewd custom of the heathen." With that, the fete was banned in the Catholic Index. Immediately it gained world-wide acceptance and recognition.

Knowing it would be impossible to eradicate it immediately, the church did the Christianly thing by substituting the names of Saints for those of the girls.

The story of St. Valentine and this festival is neatly tied together by a brilliant observation on the part of Anastasia Sludge, the great woman historian, who says: "That there historian was one helluva drunken bum and I mean he got the things confused like and since they both are having happened on the same day, they are plynchillin."

And so, dear reader, now you know. Valentines have come down through the years, from the beautiful:

*"This Valentine is just to tell
That in my mind you ever dwell
And here at home, or over there,
My thoughts with you go everywhere,*

To the equally lovely:

*"Show me, my honey, that you
Love me best.
Carve your initials
On My Chest.*

Goodbye My Fancy

By Betty Ann Jorgensen

The culmination of a semester's efforts came on the nights of January 21, and 22, when the Dramatics Workshop, (English 47), Stagecraft (Arts 35), and the Mask and Dagger Club combined efforts under the direction of Prof. Batcheller to produce the comedy, "Goodbye, My Fancy". This is the entertaining situation of the return of a successful "almost-graduate", Agatha Reed, played by Mary Alice Chandler. In a part calling for the charm and poise of an older woman-of-the-world, Mary Alice was well cast and gave a consistent performance.

For those who could afford the night away from the books during finals, I'm sure you enjoyed the delightful performance of Martha Jacobsen, who played the part of the cynical, but loveable secretary of Miss Reed. Another character deserving special commendation was that of "Miss Shackelford", the oh-so-busy housemother, played by Joan Dennehy. Another enjoyable personality was Prof. Birdeshaw, very nicely done by Janice Erikson.

It must be remembered that most of the cast was on stage for the first time in a university performance, and three groups had to coordinate their efforts. Yet it seems that with a little more care and attention to technical work especially, the entire play could have been much smoother. The cast cannot make up for all the lack of coordination, and although we don't expect the polish of a regular dramatics unit, the "chronic critics" in the audience would have had much less to talk about if lights had gone out on time, and other slip-ups had not been so obvious.

But the play did provide a light evening's entertainment, and for Misses Jacobsen, Chandler, and Dennehy, I hope, an incentive to appear again on Durham's "great white way".

General Court the urgency of the need for salary increases". For this reason we are asking you to write to a member of the House Appropriations Committee, preferably the one who lives nearest to your home town, and express your support of the University's requests. The members are as follows:

Letters To The Editor

'Dirty Rushing' Deplored

To The Editor:

During a recent stay in Durham I became aware of a startling increase in the activity called 'Dirty Rushing'. I observed and was told about many incidents wherein Inter-Fraternity Council rushing rules were openly violated. In some cases it was only certain members of a house that were carrying on this activity; however, in other cases, much to my amazement, this practice appeared to be the policy of the fraternity. In one such case a party was openly branded a 'Dirty Rushing Party'. With the formal rushing period approaching, it seems that these violations are increasing in frequency. How long will the I.F.C. sit idly by and watch its rushing rules become farcical? Perhaps this question should begin: How long can the I.F.C. sit. . . For if the fraternities themselves through the I.F.C. don't clean up their own houses, then you can be reasonably sure that the University Administration will. This sore spot could well be the excuse used to take away the privilege of fraternity self-government (I.F.C.) which now has jurisdiction (Continued on page 5)

Socialism Advertised

To The Editor:

This writer is willing to arrange a gift subscription for the UNH Library to the WEEKLY PEOPLE, the official organ of the Socialist Labor Party, fourth oldest party in this country.

The WEEKLY PEOPLE is on display in many public, college and university libraries throughout the country. It is on display in the libraries of Columbia, New York University, Vassar, Cornell, Syracuse, Sarah Lawrence, Wagner, Alfred, Harpur, University of Buffalo, Brooklyn College and other college and university libraries in this state. In New Hampshire, Dartmouth has it in the library and the WEEKLY PEOPLE is on display in the Manchester public library.

The only stipulation I make is that the paper be placed where it can be seen. It is the oldest Socialist publication printed in the United States. It has appeared every week since it was founded back in 1891 by the Socialist Labor Party. It is noted for being an authority on genuine Socialism.

The WEEKLY PEOPLE does not engage in double talk and believes in calling a spade a spade. The editor, Eric Hass, was Presidential candidate of the Socialist Labor Party in 1952 and 1956. Mr. Hass was the SLP candidate for Governor of New York in the recent election. Those who would like to see a free copy of the paper can do so by writing to the WEEKLY PEOPLE, 61 Cliff Street, New York 38, N. Y.

If the librarian will write to me at the following address, I will be pleased to make the necessary arrangements and also donate some of the booklets issued by the Socialist Labor Party.

The Stranger

I greeted sky with wind-swept heart
One winter's day and found the log
Near rust-strained screen of pine
needles,
Shivering delight, awaiting
Step of stranger — Self.

Once I had vied with praise-seeking
men
Though he would quietly brush my
sleeve,
Shy lover, with averted eyes —
Most silent too, when comfort
Was my greatest care.

I met strange Self on frozen log
One winter's day. Like clean-swept
sky
Was he, and delicate russet needles
Swaying placidly . . . but most
Like pulsating earth, indifferent.

Hold That Line

By DICK WESTON

\$500 — tuition rate next year?

It could be if the State Legislature makes no changes in Governor Powell's "hold the line" budget. This budget makes no provision for raising our present sub-standard faculty salary scale. In spite of the urgent need to raise university salaries, the governor has only made a vague promise to do something about them if state revenue exceeds his expectations. Unless it receives some strong protests from the voters, the legislature will probably go along with him.

The governor, I fear, is interested less in the future of New Hampshire than he is in the future of Wes Powell. In New Hampshire, there is no policy more popular politically than governmental economy and "no new taxes." Astute politician that he is, Governor Powell

realizes this and he is staking his political future on his ability to follow this policy.

Unfortunately, there is no policy more unrealistic. Holding the line on state expenses — a mighty attractive idea at first glance — means, in many cases, taking a big step backward.

This matter of faculty salaries is just such a case. If the state doesn't provide the money to raise them, one of two things will happen:

If their salaries aren't raised, our good professors will leave for better-paying jobs elsewhere. They might not have to go any farther than Orono, Maine, for Governor Clauson has asked — and seems sure to receive — \$4,000,000 in additional appropriations to improve the University of Maine. But wherever they go, they will have to be replaced by less well-qualified men. The level of instructional quality here will sink lower and lower until New Hampshire has a fourth-rate university on its hands.

A fourth-rate state university is a luxury we cannot afford. By 1961, the state would be spending about \$3,000,000 a year to support a poor institution. An additional appropriation now of some \$700,000 to raise faculty salaries would assume a good university in the years to come.

Even if the appropriation is not forthcoming, I don't believe that the administration would sit idly by and watch the university go to pot. They have an alternative — albeit a painful one. A flat \$200 increase in the tuition rates would just about cover the necessary salary raises.

This certainly isn't a satisfactory solution. The university exists, and receives support from the state government, to provide an education for those who could not otherwise afford it. Most of us fall squarely in this category. We already have the sixth highest tuition of any public university in the country. Any further increase would price many New Hampshire young people right out of a college education.

Either way one looks at it, the governor's "hold the line" economy results (Continued on page 5)

The Student Writer

The Canvas Lilacs

By E. WEXLER

Ev had walked over to Hewitt's art studio on a Saturday morning to keep Marian company while she worked on her Magnum Opus. The studio was bright from the swaying rays of the sun which had not yet stretched around to the open windows that intrigued a few flies. A hornet banged methodically against the ceiling, looking for a way out.

The studio smelled strongly of paint and turpentine, and the easels were spread about like disorganized toy soldiers. Some held half finished paintings, some were bare. Many of the paintings were imitations of Van Gogh, Cezanne, or Rouault, and a few possessed a mixture of all the old artistic qualities, but in a new order. There was a painting of old New England houses by a river. The artist, in his enthusiasm, always thinks that such a scene can be found nowhere else, and he must put it on canvas. There was a place very much like it in Ev's home town and she had tried to paint it. Another was that of a reclining boy. The background was black and the boy unattractive. The artist might have been suffering from extreme loneliness, or perhaps he had just tried too hard to make his painting "different". Another was an outdoor scene, very simple, except that there were huge green thumbprints all over it. The painting seemed as though it might have been done by the kind of person who wore a beard. Marian said that he did. Another was a mural with graceful oriental masculine figures. It flowed smoothly from end to end and left its observer with a restful awareness of its tale.

There were empty paint tubes curled on the tables and thrown carelessly on the floor. Maybe they represented the frustration of an artist's dream, or maybe just empty tubes of zinc white. There was also a used palette smudged with various dried mixtures so vivid and beautiful that to scrape them away would mean that no one would ever see anything like them again. But one always did.

Near the middle of the room, on one of the smaller tables, lay a piece of slightly crumpled newspaper that showed half a picture of Ted Williams getting kicked out of a baseball game, with a large spot of lavender on his shoulder where a stiff brush rested. Not far from the table was an angular still life, used as a model for some class, made up of a dusty sheet over some cartons, with an indentation in the folds for a grapefruit that had long since been eaten.

Ev sat down on a stool by the window and watched Marian prepare to work. She brought out a large unfinished painting of multi-colored trees. Ev was not quite sure what to think of it, but it was evident that a lot of work had gone into it, and a lot more work would go into it before it was finished. Marian seated herself on a high three-legged stool, looking very artistic in her red pedal-pushers and a pink smock that probably served as a kitchen apron when she was not painting. All she needed was a purple beret. She squeezed the various tubes of paint onto her palette and patiently mixed her colors.

Ev folded her arms on the window sill and rested her head in the cradle they had made. The scent of lilacs came floating up from the bushes along the path below and the breeze blew gently, stirring the hair on her arms. The power plant across the road puffed strange black shapes into the air, and when they faded, replaced them with new ones. It hissed and hummed in vague muted harmony with the beetle's buzz. She had heard the sound often in her back yard when she was a little girl, and she thought about

the vine-covered bird bath, the humid haze in the sky, the brisk rhythmic sound of her mother's broom on the porch steps, the innocent questions she would ask that her mother left unanswered, the little boy next door she could not play with because his mother ran around with other men. But once in awhile the two of them would sneak off among the abundant lilac bushes and play jungle. The leaves were palm branches, the blossoms were purple and white cocoanuts that they would chew on to taste the sweetness, and the bumble bees and junebugs were the head hunters. When they became exhausted from their afternoon adventure they would lie beneath the bushes and the drowsy fragrance of the lilacs would put them to sleep until the shadows lengthened and her mother called and scolded her.

In the distance she heard the sound of a motor approaching, and looked up to see a familiar car going by. She caught a glimpse of his profile — just a blur, but her thoughts easily filled in the rest. His face had hardly changed since he was a boy in their jungle. She recalled the time she told him how handsome and wonderful he was, how it wasn't just "kid's stuff", and how it was "different". And she gave him her brand new yo-yo, and he laughed and pushed her into a soft pile of dirt. Suddenly she felt sick to her stomach and tense. She wanted to run up to him and hug him and tell him all over again. But he would still toss his head and laugh, and thank her for the yo-yo.

She swallowed and angrily cursed herself for being sentimental. She stretched her neck out of the window as far as she dared and watched the car intently until it had disappeared behind the bushes. She sank back into the folds of her arms, thinking that soon she would never see him again. It was funny how the best things never worked out. Everything seemed to have been wrong from the start. She remembered the night a year ago she had tried to tell her mother about him. It would not have helped really, but she would be consoled in having someone to talk to. She knew it would not be easy to say she was falling in love with someone she knew her mother had always hated. She and her mother slept in twin beds in the same room and had not yet gone to sleep.

"Mom?"

"What?" her mother's voice came back, already irritated.

"What's the matter? You mad?"

"Oh, you've just been acting hateful for a long time, now, and I'm sick of it!"

"You mean about the beds?" Ev asked. They both knew it was more than that.

"Well, that's part of it. You knew we had company and there was a shortage of beds. And your brother only home for a little while — you should have given him your bed, selfish!"

"Selfish because I thought we should

Six Sororities Elect New Officers

The six sororities on campus have elected their officers for the coming year. Alpha Chi Omega elected as President, Sally Washburn; First Vice-President, Allwynne McMullen; Pledge Trainer, Sally Anthony; Co-Rush Chairmen, Donna Church and Lynne Wright-nour; and Co-Social Chairmen, Judy Lane and Penny Hallward.

Chi Omega elected as President, Anne Hescok; Vice-President, Jane Vickery; Pledge Trainer, Ellen Hein; Co-Rush Chairmen, Helen Plasteras and Joan McKenzie; and Social Chairman, Carlotta Regan.

Alpha Xi Delta elected as President, Sheila Mulvey; Vice President, Sally Morris; Pledge Trainer, Marsha Makris; Rush Chairmen, Ellen Dukat and Fran Pomorski; and Social Chairmen, Nancy Gilbert and Sandy Marsh.

Theta Upsilon elected as President, Sue Cooper; Vice President, Lyn Jackson; Rush Chairman, Faith Barnett; and Social Chairmen, Nancy Bales and Gisele Bougie.

Kappa Delta elected as President, Patty Martin; Vice President, Marsha Martin; Secretary, Roberta Schmottlack; Treasurer, Jean Connelly; and Rush Chairman, Janet Erickson.

Phi Mu elected as President, Meredith Pike; Vice President, Diane Morgan; Pledge Trainer, Cynthia Mowles; Co-Rush Chairmen, Sally Crane and Marge Ramage; and Social Chairmen, Josie Russo and Sally Crowley.

WMDR Elections

Election of Mike and Dial Radio officers will be held on February 18, during a general meeting which starts at 7:00 p.m. in studio A. Suggestions for officers made by various staff members are as follows:

Station Manager: Peter Kinch
Station Managers: Peter Kinch, Douglas Brown
Program Director: Dave Hinds
Program Directors: Dave Hinds, Vic Battaglioli
Chief Engineer: Dwight Baker
Chief Engineers: Dwight Baker, Don Pomeroy
Business Manager: Bruce Miller
Secretary: Nancy Adams

Howard Boyajian Gives Violin Recital

Howard Boyajian of the University's Department of Music will present a violin recital on February 18 at 8:00 in Murkland Auditorium. His program will feature the works of Handel, Beethoven and Faure.

Mr. Boyajian is a graduate of the Juilliard School of Music and Oberlin Conservatory where he was a scholarship student. He has taught on the faculties of Alabama State College, Bucknell University prior to his arrival at the University this past year.

He has appeared frequently as recitalist in the South, Mid-West and North-East, and last year was seen several times on channel WGHB-TV in Boston as a lecturer and performer on stringed instruments. During 1957-58, he was the recipient of a Doctoral Teaching Fellowship at Boston University and is currently continuing work on the Doctor of Musical Arts degree.

The public is cordially invited to attend this free concert.

Postmaster Announces Mail Delivery On Sunday

At last Durham has become cosmopolitan! Postmaster Art Stewart announces that there will be a dispatch of mail on Sunday, effective immediately. Letters dropped in any box by noon on Sunday will be dispatched that afternoon. When this time was established, the Postmaster inquired, "Why so early in the day?" Sunday train schedules are such that 12 noon is the latest time to make a dispatch of any value connecting with Boston, New York and beyond.

Saturday, February 14 is Valentine's Day. If you wish to insure delivery of your Valentine, a Special Delivery will do so within an hour after being received at the post office of destination.

in flagrant waste. The state would be wasting \$3,000,000 a year of the taxpayers' money on:

1. A university where the quality of instruction is so poor that it is not worthy of the name, or
2. A public university where the tuition rate is so high that it is not a public university at all.

I don't think we should be too harsh on Governor Powell. He is working on the assumptions of a politically ambitious man who has no knowledge of economics. However, if the legislature follows his, they will not only be doing the taxpayers out of a good use for their hard-earned money, but they will also be doing the youth of New Hampshire out of a chance for a decent education. A system where everybody loses is not good economics. It is not even good common sense.

Yesterday afternoon, the university took its original budget request to a hearing of the House Appropriations Committee. This committee will consider the university's request for a week or two and then report to the House, recommending the amount it believes should be appropriated. The House almost invariably votes according to committee recommendations.

These gentlemen will approve the salary increase and the rest of the university's request if they learn — in no uncertain terms — that the people of New Hampshire want a good university; that they will not tolerate a waste of their money and the talents of their children.

Dirty Rushing . . .

(Continued from page 4)

over most of the major fraternity matters. This would spell the end to the fraternity system as we now know it at the University.

A stronger I.F.C. and a more active Judicial Committee seems to be the most logical answer to this threat of self-destruction. The regulations are there and the penalties are certainly severe enough. But these alone are not enough. As long as violations go unreported and unpunished, fraternities will continue to take a chance in order to get a head start on the other houses. If this goes unchecked for long, a house finds that it must practice dirty rushing in order to just keep on an even footing with the other houses. Rushing rules are primarily necessary in order to give all houses an equal chance. The fraternity system could continually be dominated by two or three large houses if it were not for these rules. This would obviously lead to a very unhealthy situation and most certainly the Administration would step in to correct it.

Respect for these regulations can only be gained by cracking down on the offenders. Anyone seeing a violation should report it to the I.F.C. The penalties that may be imposed are severe enough to make any fraternity member think twice before jeopardizing his house's future status. One I.F.C. rule even provides punishment for freshmen rushers involved in any rushing rule violation. Under this regulation he may become ineligible to accept a bid. These violations then, not only hurt the fraternity system as a whole but they may also hurt each of the parties involved.

It would seem then, that enforcement is urgently needed. The present fraternity self-government system is at stake.

Sincerely,
Arthur J. Moody

Cat Hopes Look Good For A Winning Season

Scenes From The Sidelines

Cats Should Have A Good Semester

By Doug Brown

Basketball and hockey share the spotlight in the Durham sport scene this week, with the teams resuming action after two weeks of idleness.

Coach Bill Olsen's hoopsters start the week off Monday by playing Bates College in Lewiston, Maine. They return home for rugged games with Maine and Boston University on Wednesday and Friday.

A win over the Black Bears is essential if the Wildcats are to climb out of the Yankee Conference cellar. A win over the Terriers would give the Cats another major upset like that over Harvard in the Springfield Tourney.

The green sophomores of last year may have acquired enough polish to give the University of New Hampshire its first winning team in 7 years. Their present record is 7-9 but the team has been improving with every game.

Pete Smilikis is a prime example of the general improvement of the Durham basketballers. Last year the 6-5 giant scored 236 points in 21 games. This year he has a total of 221 points in 16 games plus he has developed into a fine rebounder making him a more than adequate center.

Jim Greene has 152 points at present, more than double his production of last year. Pete Davis, who played little at the beginning of the season, has scored at a 10.8 clip since his recovery from an injury. Doug Macey scored 148 points in 20 games last year and has 134 already this season. Terry Parmenter, finishing out the starting five, has scored 58 points thus far eclipsing last season 54.

Pepper Martin's pucksters return to action after nearly three weeks with three games in as many days. They meet Bowdoin in Brunswick on Thursday, Tufts in Boston on Friday, and MIT in Durham on Saturday.

Co-captain Albie Brodeur of Berlin and Ray March of Milton, Mass. are in a position to shatter many records held by Russ Martin for the last 20 years.

Brodeur is shooting for the career records of 44 goals and 74 points held by Martin. Albie has 40 goals and 70 points to his credit

Richard C. Swift Completes Officer Leadership Course

Army 2d Lt. Richard C. Swift, 22, of Beverley, Mass., recently completed the infantry officers leadership course at The Infantry School, Fort Benning, Ga. Instituted for officers who have not yet served with troops, the course is designed to familiarize each new officer with the administrative and tactical responsibilities of an infantry unit commander. Lieutenant Swift is a 1958 graduate of the University and a member of Alpha Tau Omega fraternity. His parents, Mr. and Mrs. Orville T. Swift, live at 8 Cleveland Road.

for his three years of varsity competition.

Ray March is in a better position to break Martin's single season records. March has 15 assists to Martin's single seasons high of 16. More remarkable is the fact that March has 30 assists in just a year and a half. It took Martin 3 years to set his record high of 30.

Earlier in the year March tied a Martin record of 5 assists in a single game. March tied the record in the UNH 10-0 rout of Cornell while Martin collected his 5 assists in a 19-2 trouncing of St. Anselm's in 1938.

Another man who has been partly responsible for the fine showing of the Cat skaters is the fine young sophomore goalie, Rod Blackburn.

The Wildcats have been playing a wide open game this season which finds Blackie very often, left alone as the only guardian of the goal. Using his amazing reflexes, he makes the difficult look easy.

Looking at the record books again we can see how valuable Blackie is to the team. The UNH record for shutouts is four, but Blackie has accounted for three already, coming in his first 6 varsity games. Against Hamilton he accounted for 43 saves and against Colby he stopped 49 an Alford Arena record.

Coach Olsen's basketball team could produce a winning season and Coach Martin's hockey team could and should produce a record breaking season. Keep the good work going gang.

Understrengthened Cat Varsity Track Team Upsets Northeastern

"He was the most completely beaten man I've ever seen, but he won the race," said University of New Hampshire track coach Paul Sweet describing Myron Selzer's victory in the 1,000 yard run.

The victory by Selzer helped an undermanned Wildcat squad upset Northeastern 68½-48½ in Boston.

After a couple of laps, the lanky Army veteran from Portsmouth looked hopelessly out of the race. He plodded along nearly a lap behind a pair of smooth striding Huskies.

Suddenly, the captain-elect of the cross country team made his move. Running on sheer determination he caught up with and passed first one Huskie and then the other to win going away.

"It's things like that that make coaching worthwhile," said Sweet, who has been UNH's track coach for 35 years. "You see a boy who looks hopelessly beaten but who refuses to quit and comes roaring back. They are the real champions, those boys who get up off the floor and win."

The 27 men that University of New Hampshire coach Paul Sweet took to Northeastern have the makings of a fine winter track squad — except for the fact they are divided into two different teams.

Sweet has only 18 men on his varsity and just 9 on the frosh squad which presents a real problem in depth in the indoor meets.

For example, in their first meet against Bates, UNH's varsity took first in the discus, shot put, 35 pound weight, mile, two mile, and 40 yard dash. They lost to Bates 76½ to 44½ because of weaknesses in the running and jumping events.

On the other hand, the frosh bowed

Wildkittens Nosed Out By St. Anselm's Hawks

Sparked by Al Hurlbut and Al Hinchey, the St. Anselm's freshman hoopsters topped the UNH Frosh 75-70, coming from behind in the second half.

Hurlbut scored 21 points and Hinchey scored 19 for the fledgling Hawks, while Paul Twomey with game high 23 and Dave Agrodnia with 17 paced the Wildkittens.

UNH 70

McEachern 2-2-8, Burden 7-1-15, Twomey 8-7-23, Agrodnia 7-3-17, Battaglioli 0-1-1, Weinberg 3-2-8.

St. Anselm's 75

Mahoney 4-0-8, Smith 2-1-5, Pepin 5-3-13, Hinchey 9-1-19, Hurlbut 10-1-21, Bouchard 4-1-9.

to Bates yearlings 74-48 because of a weakness in the weight events in addition to a lack of depth. They swept the running events with Chuck McKee of Claremont winning the two mile, Al Johnson of Portsmouth the 1000 and the mile, and Tom Locke of Alton the 600.

Spliced together, these two squads would give Sweet one of the best squads in his 35 years of tutoring track. Under the circumstances, they are divided and conquered.

Each team does have some outstanding individuals. Cliff Lehman and John Ineson of Rochester dominate the discus, Paul Lindquist and Don Trimble are supreme in the shot and 35 pound weight, and Doug Blampied, shines in the dash.

Cal Fowler of Durham, wins most of the two mile grinds while iron man Stan Moulton of Laconia races both the mile and two mile.

For the frosh, Charlie Beach, of Rochester, a terrific sprinter and pole vaulter, and Walt Fender of Wakefield, Mass. who competes in the shot, discus, and high hurdles stand out along with runners McKee, Johnson and Locke.

Wildcats Defeat MIT 77-72 For Their Third Straight Win

The UNH Wildcat basketball team outlasted MIT, 77-72, for its third straight victory in Cambridge before the mid-year break. The Wildcats were rolling along with an 11 point lead with five minutes to play, when guard Hugh Morrow suddenly got hot. He threw in four straight baskets to whittle the margin to five points and up his game total to 29. However, the Beavers never drew any closer.

Pete Smilikis scored 27 points, 19 in the first half, and grabbed 24 rebounds to lead the Wildcats.

Return Game

Traveling to Manchester, the Cats were trapped by the St. Anselms Hawks 77-61 at the Bishop Bradley gymnasium to drop their seasons record to 7-9.

Problem Children

Bob Barrett, and Dick Bailey, the two who caused the Wildcats such trouble earlier in the season in Durham, again teamed up to give the Hawks an early lead. But towering Pete Smilikis combined with Doug Macey and Tim Lindman to give the Olsenmen a 22-15 lead at the quarter.

Dave Swan then touched the nets for ten of his seventeen point total in the second frame. With help from Wes Wheeler the Hawks took a 40-37 half-time lead.

Pete Davis and Smilikis traded baskets with Bailey and Swan to remain close in the third stanza only to see the Hawks tighten their defense for the remainder of the game. Big Gus Erhardt, 6-5, returned to the lineup after an injury scoring 12 and grabbing 14 rebounds. Pete Smilikis who hit for 15 Counters and did most of the UNH rebounding shone for the losing Cats. MAKING UMBRELLAS

UNH Icemen Breaking Records

Norwich Defeats UNH Hockey Team By A 4 To 2 Score

Battle scared Don MacInnis sparked Norwich to a 4-2 upset over UNH in a game at the Bachelier Rink. The speedy Cadet wingman set up the first goal by Bob Billings and scored the second at 11:31 of the second period. MacInnis sat out a couple of turns while the doctor patched a bleeding cut over his left eye. He then roared back to put Norwich in front 3-0 with a goal at 10:35 in the second period. After a goal by Jerry Schelling, the Cadets played defensive hockey the rest of the evening. They were successful for the most part except when Ted Sobozenski of Exeter scored on identical plays with Bob Patch and Ray March assisting.

A rash of penalties kept Norwich short-handed for eight of the final 20 minutes but the Wildcats could not take advantage of this.

- First Period*
1 Norwich Billings (Norton-MacInnis) 7:52.
2 Norwich MacInnis (Barnes) 11:41
Second Period
3 Norwich MacInnis (Norris) 10:35
4 Norwich Schelling (McClelland) 15:25.
5 UNH Sobozenski (Patch-March) 19:32.
6 UNH Sobozenski (Patch-March) 3:39.
Saves Norwich Wellblock 22, UNH Blackburn 16.

A husband gave his wife a bathrobe for Christmas because, he told her as she unwrapped it, "the moment the sales-girl pulled it out, I could see you in it." With an affectionate hghg his wife explained why: She had been wearing one just like it for two years.

— The Reader's Digest

Frosh Hockey Team Misses Cold Weather

Two goals by Ed Silva and 36 saves by Joe Bellavance of Nashua weren't enough as Cranston, R. I. high upset the UNH Frosh sextet 4-3.

The visitors jumped off to a 3-1 lead in the final period and hung on until the closing buzzer.

The January thaw may be welcomed by most everyone in New England, except the freshman hockey team at the University of New Hampshire.

The rain and 60 degree temperatures had already eliminated two practice sessions for the Kittens in the still early season.

Strong for the UNH team are a pair of Massachusetts boys who have scored 11 of the team's 13 goals. Ed Silva of Gloucester has 6 while Chuck Fisher of Holliston has scored 5.

Another strong man for the fledglings is rangy Ken McKinnon of Montreal, Quebec. He has scored one of the remaining UNH goals in addition to setting up five others.

The Wildkittens have an iron man defensive duo in Ed Mullen and Fred Johnson. This pair plays the entire 60 minutes, resting only when they are in the penalty box. Mullen came to UNH from Kimball Union Academy and Johnson hails from Berlin.

Nashua's Joe Bellavance is improving with every game at his goalies position.

Teaming on the first line with Silva and McKinnon is Sam Nichols of Greenwich, Conn. Fisher centers a line with Kelly Brown of Reading, Mass. and Jim Sylvester of Norwell, Mass. on the wings.

- First Period*
1 Cranston A. Tingley
2 UNH Silva
Second Period
3 Cranston Kaufman (R. Tingley)
Third Period
4 Cranston Shongren
5 UNH Silva
6 Cranston De Michele (Stahoriak)

UNH Finishes Fourth At The Dartmouth Winter Carnival

Middlebury dethroned defending champion Dartmouth College today with a solid performance in the closing jumping events of the 49th annual Dartmouth Winter Carnival ski meet.

The winners piled up 586.4 points for the two day meet with Dartmouth close behind. McGill University of Montreal finished third.

The individual star of the meet was Einar Dohlen of Oslo, Norway, a University student. Dohlen scored 211.5 points on the 14 meter course with jumps of 141 and 140 feet.

The Wildcats finished fourth in the final standings, third in the team jumping and fourth in the Nordic combined.

In the individual jumping behind winner Dohlen, Robes finished 9th with jumps of 125 and 121 feet. Tied for 12th was Small with jumps of 117 and 111 feet to complete the three UNH jumpers. Small finished highest of the UNH men in the Downhill race, placing 18 in a field of 39. He was followed by Cole in 22nd and Robes in 26th and Lane in 27th.

The overall final standings found Middlebury the champion followed by Dartmouth, St. Lawrence, New Hampshire, Maine, Vermont, Williams, McGill, Norwich, and Harvard in that order.

- 7 UNH Fisher (Johnson-McKinnon)
Saves Bellavance 36, Pagieri 19

Sports Desk Has Hit The Score Contest

The New Hampshire is sponsoring a sports contest which will appear on the sports page for the next three weeks.

The rules are simple and any student is eligible. All you have to do is fill out the enclosed ballot and drop it in the ballot box which will be available in the lobby of the Memorial Union Building or slide it under the door of the New Hampshire office with the title Sports Editor written on it.

Hit the exact or nearest score of each or all of the last four Wildcat basketball games and win yourself a carton of Dual Filter Tareyton. This does not mean hit all of the scores but hit any one of the scores.

Each week two cartons of cigarettes will be given away to the closest guesses. This week you have two games to guess at, the UNH-Me. game of the 17th and the UNH-URI game of the 20th. Ballots for the Maine game must be in by 6 p.m. on the 17th and for the URI game by noon of the 20th.

Join the fun and smoke (maybe) free for a while. Your sports editor, who does not smoke, is on the board of judges.

Wife leaving movie, to husband: "I wish just once they'd have as good a picture this week as they're going to have next week!"

THE READER'S DIGEST

Bright Prospects For 1959 Varsity

Although Coach Andy Mooradian's frosh hoopsters have lost 3 games in 5 starts, they still may produce four excellent prospects for the University of New Hampshire varsity next winter.

Dave Agrodna, John McEachern, Paul Twomey, and Wayne Burden definitely look like varsity material on a team that lacks enough height and depth to win consistently.

Agrodna, the 5-10 guard from Berlin High, has played the steadiest game for the Kittens in the first half of the season. He riddles zone defenses with his eagle eyed shooting. A clever passer and dribbler, Dave has averaged 15 points per game for the frosh.

Rugged John McEachern of Portsmouth stands only 6-3 but rebounds as though he were 6-7. He uses perfect timing plus an exceptional amount of spring to take the ball away from bigger men. A strong defender, McEachern has averaged 13.2 points per game including the 26 he scored against UConn's frosh.

Paul Twomey, a 6-2 forward from Andover, Mass. has the most points (78) and the best average 15.6, on the Kittens. A member of the great Central Catholic team of two years ago, Twomey looks like prime varsity material.

Lean Wayne Burden of Taunton, Mass. could help the UNH varsity next year if he maintains his 12.8 points per game average.

N. H. Frosh Lettermen

Twenty-two of the thirty-five boys who received freshman football numerals from UNH hail from the Granite State.

The list includes Dick Gadbois, Mickey Hennessey, and Vern Wood of Littleton, Charlie Beach and Charlie Hodsdon of Rochester, Vic Daniels and George Whipple of New Boston, Joe Bellavance and Stan Slosek of Nashua, Dave Chevalier of North Hampton, Bob Cook of Sunapee, Phil Currier of Pelham, Roger Dion of Lebanon, Fred Fenton of Center Conway, Bill Healy of Hollis, Win Hilton of Epping, Bill Horne of Concord, Ralph Jacobs of Pike, Dick Jones of Durham, and Charlie Weeks of Portsmouth.

THAT NEVER LEAK

To achieve umbrella-like radar protection, Hughes engineers have developed systems which position radar beams in space by electronic, rather than mechanical means. These unique three-dimensional radar systems are digitally programmed to instantaneously detect high speed enemy aircraft, even at low altitude.

Another Hughes system using radar information is the Hughes Electronic Armament System. This system pilots high-speed jet interceptors from take-off to touch down... and through all stages of the intercept. Both radar and infrared guidance systems direct today's most sophisticated air-to-air guided missile—the Hughes Falcon.

Research on the Maser (Microwave Amplification by Stimulated Emission of Radiation) is directed towards applications of a portable, airborne Maser for missiles and aircraft.

Advanced new projects are under way in all areas of Hughes. Presently under study are Space Vehicles, Ballistic Missiles, Nuclear Electronics, Advanced Airborne Systems, AICBM, and Subsurface Electronics... just to name a few. Hughes Products, the commercial activity of Hughes, has developed an electronic control system which automates a complete and integrated line of machine tools. Also under way at Hughes Products is the development of revolutionary new semiconductor devices.

The highly advanced and diversified nature of Hughes projects—in the air, on the ground, and for industry—provides an ideal environment for the graduating or experienced engineer.

A laboratory for learning, Field Engineering at Hughes provides over-all systems experience in both guided missiles and advanced airborne electronics systems.

AFROTC Shooters Establish Record

The University of New Hampshire Air Force ROTC Rifle Team has established a new record for that organization by placing second in the annual William Randolph Hearst ROTC Rifle Competition. Competing against nineteen top teams from other colleges in the Northeastern United States, the first team scored a grand total of 893 points. The second team with a score of 858 also finished second in the second team competition.

Michael N. Perreault and Duane M. Groves were the high scorers for their respective teams. Colonel James H. Starbuck, PAS of the Air Force ROTC Detachment at the University congratulated the team for their excellent showing and stated "... the extra time and effort extended by the rifle team and their coach, S/Sgt Donald A. Bartz has given the University a rifle team to be proud of".

Tudor Singers Present Their Fifth Concert

The fourteen members of the University Tudor Singers at the University presented their fifth concert of the year on Sunday, January 25.

The Tudor Singers, under the direction of Mrs. Meredyth M. Jones, have had an active semester. Since their first concert at the University in November, they have performed in Pittsfield, Dover, and for the Great Bay Branch of the A.A.U.W.

The recital included music from the vast literature for vocal ensemble. The entire Tudor Singer group performed madrigals by Thomas Morley, Orlando di Lasso, Gesualdo, Paul Hindemith, and other representative Italian and English composers of this idiom.

Suzanne Roy, Reina Paananen, and Donald Laurence sang three trio nocturnes by Mozart. The Buxtehude cantata, "Aperite, mihi portas justitiae" was performed by Mary Butler, Harland Jackson, and Wayne Stoebe, and was assisted by Susan Mangam and Julie Dougal, violinists.

Queens

Announcement of the Queen candidates for Winter Carnival has been made by the Outing Club. Candidates have been nominated by twelve women's housing units. The following are the nominees.

Phillis Quint	Kappa Delta
Josie Russo	Phi Mu
Jill Flint	Sawyer
Carol Mackenzie	Theta Upsilon
Joan Prisby	South Congreve
Glynn Griffiths	North Congreve
Barbara Paczosa	Alpha Chi Omega
Carol Pandini	Scott Hall
Marsha Makris	Alpha Xi
Frances Weckerlee	Smith
Carolyn Rhoades	McLaughlin
Holly Paterson	Chi Omega

Voting will be Tuesday in the T Hall arch. The winner will be announced at the central snow sculpture on Thursday night. She will be crowned by Governor Powell at the ball Friday.

SEATO

(Continued from page 1)

First prize includes a \$100 plus a trip to Monterey Peninsula, Calif., to attend the 12th Annual Conference of the Association of International Relations Clubs. Second, third, and fourth prizes consist of \$75, \$50, and \$25 respectively.

Contests of a similar nature are being held in other SEATO countries. The Prize winning essays of the participating countries will be sent to the SEATO headquarters in Bangkok.

Crusade

(Continued from page 1)

tribution in order to be eligible, but one dollar or more sent with a winning Truth Broadcast will double the award. In other words, a member of the family may go with those who have won free trips to Europe, and portable transistor radios will be added to the shortwave receivers, if a contribution is made.

Supported by American contributions to the Crusade, RFE broadcasts to Communist-dominated Poland, Hungary, Czechoslovakia, Romania and Bulgaria.

Carnival

(Continued from page 1)

present "The Trombone Sound" at its peak. Four trombones and three rhythm; and wait until you see the boys put down their trombones and come up with four tromboniums!

So there you have it. Kai Winding is one of the biggest names in the jazz field today. His new group has already won national acclaim and has become a favorite of college campuses, having played at over twenty-five, already.

But don't be frightened if you're thinking of doing a little dancing. Music can be good and still be danceable, too. Really.

Rushing

(Continued from page 1)

and/or meals on Wednesday evenings throughout the rushing period.

On the first and third weekends freshmen may be entertained in the houses on Friday and Saturday evenings from five-thirty to midnight.

The silent period begins on March 4th, and no communication between freshmen and the fraternities will be allowed until after bids are given out on the following day.

At this time those freshmen wishing to pledge a house will sign an acceptance card and deposit their pledge fee of \$6.00 at the Memorial Union Building.

In order to pledge a fraternity the rushee must have an accumulative average of at least 1.8.

Canvas Lilacs

(Continued from page 5)

take turns? What's wrong with that?" "Oh - - -!" Her mother could not think of an answer right away and turned over. There was silence.

"Mom?"

"I'm sorry."

"Oh, it's all right. I just don't understand you anymore!"

Ev slid her arm beneath the pillow. "Sometimes," she ventured cautiously, "if someone you know very well acts differently, maybe it's because something is bothering them?"

"So?" her mother questioned. "If you have a problem, you figure it out. Nobody ever figured out my problems. I had to do it myself."

"But I have you to help me. Why don't you?" Ev's voice began to quiver. "I should think you'd want to help if you could."

Her mother paused. "Oh, all right," she said with a yawn. "What is it?"

Ev sighed and turned over on her stomach, clutching the pillow case as hard as she could. "No, Mom. Not like that. You have to want to listen."

"Oh, make up your mind. Anyway you're ruining my night's sleep. Don't be selfish!"

Yes, just a year ago, almost to the day. Ev shut her eyes tight and swallowed hard. She recalled how she had cried for many hours after. Was it only one year? She sighed. He was smart. He could teach anywhere. Why was he needed almost a thousand miles away? Soon he would be gone and there would be nothing.

She opened her eyes and happened to look up at a painting she had not noticed before over near the corner window. It was of lilacs. The vase was lavender, like the flowers, and was placed in a cool, fresh background of green and white. The blossoms were full and delicate, the petals almost too real. She watched it sadly as the sun's rays slowly lengthened across the painting and made the blossoms turn to yellow, green. Its coolness disappeared and it became musty, humid, then hot.

Marian seemed to be getting angry with her trees, and began to mix hotter colors and paint more vigorously. And the colors blended smoothly. Soon she could be satisfied by her anger and they would leave.

Ev turned back to the blazing lilacs. She stared for a long time, and bent her head to the sun-baked window sill and cried softly.

Do You Think for Yourself? (ANSWER THESE QUESTIONS AND FIND OUT!*)

1. If you were about to buy an automobile, would you (A) study the road-test reports in the magazines, or (B) select the car that looks best to you?

A ☐ B ☐

5. In buying a radio, would you be influenced more by (A) low price, or (B) product features despite a slightly higher price?

A ☐ B ☐

2. When confronted with a menu with lots of foreign terms, do you (A) ask what is in each dish, or (B) accept the waiter's recommendation?

A ☐ B ☐

6. When deciding on what movie to see, do you usually prefer films that (A) are gay and diverting, or (B) have a social message?

A ☐ B ☐

3. When invited to play an unfamiliar game, do you (A) refuse to play until you fully understand the rules, or (B) pick up the rules as you go along?

A ☐ B ☐

7. When you run into a foreign phrase in a textbook, do you first (A) head for a dictionary to find the meaning, or (B) try to dope out the meaning yourself?

A ☐ B ☐

4. When invited to a party, do you (A) accept, hoping to enjoy yourself no matter who attends, or (B) try to learn who will be there before accepting?

A ☐ B ☐

8. When reading the paper, do you (A) catch yourself concentrating on scandal stories, or (B) spend your time on news and editorial matter?

A ☐ B ☐

9. In choosing a filter cigarette, (A) are you easily swayed by bold claims, or (B) do you think for yourself and stick by your decision?

A ☐ B ☐

If you're the kind of person who *thinks for yourself* . . . you use judgment in your choice of cigarettes, as in everything else. Men and women who think for themselves usually smoke VICEROY. Their reason? Best in the world. They know that only VICEROY has a thinking man's filter and a smoking man's taste.

*If you checked (A) on three out of the first four questions, and (B) on four out of the last five . . . you really think for yourself!
